Pooja Goel

DATABASE & CLOUD ENGINEER | OPERATIONS | RELIABILITY & AUTOMATION

Singapore (Full Work Rights | No Sponsorship Required) ♦ ♦ 8poojagoel@gmail.com ♦ www.linkedin.com/in/poojagoel08

Professional summary

Technology professional with 4+ years of experience supporting and improving database platforms across on-premises and Azure environments. Hands-on experience with SQL Server, PostgreSQL and MySQL, including production operations, performance optimisation, high availability, backup and recovery, database security, migrations and incident response. Uses automation and AI-enabled tooling to improve monitoring, operational efficiency and knowledge access. Experienced in cross-functional delivery, technical evaluations and maintaining service reliability for critical systems.

Skills

Databases & Cloud: Microsoft SQL Server / MSSQL, Azure SQL, PostgreSQL, MySQL, Azure Cosmos DB, on-premises and cloud environments
Operations & Reliability: Production support, monitoring, incident troubleshooting, high availability, replication, backup and restore, disaster recovery, RTO/RPO, capacity planning, patching and upgrades
Performance & Migration: Query and index tuning, configuration optimisation, database migration, cloud migration, consolidation, scalability and business continuity
Security & Governance: Database access controls, data-plane RBAC, security concepts, audit reporting, governance policies, data integrity and compliance support
Automation & Tools: PowerShell, GitHub Actions, GitHub Copilot, Azure DevOps, GitHub, Grafana, SSMS, Terraform, Bicep, YAML, Python
AI & Evaluation: LLM knowledge assistants, agentic AI, vector databases, embeddings, semantic search, proof-of-concept design, benchmarking and test-case development

Work history

Data Services Engineer, 11/2022 - Current
Pointsbet – Melbourne, Victoria
- Maintained 100% server uptime and zero performance degradation during high-volume periods by optimizing database servers, queries, and configurations across environments.
- Delivered SQL Server infrastructure for business expansions within a 2-day SLA, leading provisioning and operational readiness from setup through deployment.
- Reduced database issue resolution time by 67% by implementing AI-driven monitoring, agentic alert diagnosis, and automated incident post-mortem reporting.

Graduate Data Services Engineer, 07/2022 - 11/2022
Pointsbet – Melbourne, Victoria
- Migrated 6+ databases from on-premises to Azure, improving scalability by 90% while ensuring business continuity throughout the migration.
- Improved database availability to 99.99% by implementing and optimizing high-availability, replication, and recovery solutions across 13 production environments.
- Led 2 acquisition-related database migrations and consolidations, integrating 11 databases while maintaining data integrity, compliance, and business continuity.

Academic Tutor – Professional IS Consulting, 02/2022 - 11/2025
The University of Melbourne – Melbourne, Victoria
- Facilitated engaging tutoring sessions, enhancing student comprehension and retention rates.
- Monitored student progress, identified areas for improvement, and implemented targeted interventions to promote academic growth.
- Collaborated with faculty to align tutoring strategies with curriculum objectives, ensuring adherence to educational standards.

Project Management Intern, 11/2021 - 02/2022
Ladder Media – Goa, India
- Coordinated a 20+ member team, driving cross-functional collaboration, task alignment, and on-time delivery of key project milestones.
- Managed 50+ project workstreams/dependencies, improving delivery turnaround by 65% and maintaining alignment across stakeholders.
- Refined project plans and presentation materials for investor presentations, supporting funding evaluation and decision-making.

Education

Master of Information Systems: Professional, 02/2021 - 12/2022
The University of Melbourne - Melbourne, VIC
- Melbourne School of Engineering Scholarship 2020
- Melbourne Graduate Scholarship 2022
- Deloitte Award for Professional IS Consulting
- Recognized in the Faculty of Engineering and IT Dean's Honor List 2022

Bachelor of Technology: Computer Science and Engineering, 07/2016 - 06/2020
SRM Institute of Science And Technology - Chennai, India
- GPA: First Class with Distinction

Projects

AI Enablement and Adoption :
- Built an internal LLM-powered DBA knowledge assistant, reducing 30+ recurring DBA queries / saving 60+ hours per month through context-aware guidance on performance tuning, database standards, operational procedures, and data access.
- Automated 6 DBA workflows using GitHub Actions and GitHub Copilot, reducing manual effort by 70% and streamlining data access requests, task creation, audit reporting, PR validation, third-party script and compliance processes.
- Explored vector databases, semantic search and embeddings to improve knowledge retrieval and support AI adoption across database operations.

Proof of Concept of New Tools and Features :
- Conducted feasibility and performance evaluations of new monitoring tools, Azure features, data management solutions, and database security concepts.
- Led PoCs for Azure Storage Actions, Data-plane RBAC, Copilot agents, MCP servers, burst capacity, and PostgreSQL index tuning, evaluating their impact on performance, scalability, security, and operational efficiency.
- Designed test cases, benchmarked 15+ configurations, and analyzed results to provide data-driven recommendations, contributing to 80% efficiency gains and cost reduction by 1/3rd.

Additional Experience

- Face Painting Artist and Business Owner - @colourzone_melbourne
- Ambassador at STEM Sisters, empowering women of color in technology fields.
- Student Ambassador at The University of Melbourne.
- STEM Mentor at The University of Melbourne.
